

A tribute to Professor Ion Colojoară

Fellows, friends, and former students, from Romania and abroad have suggested to the editorial board that this issue of the Annals of the University of Bucharest (mathematical series) should be

dedicated to Professor Ion Colojoară

on his 80th anniversary. The Editors have enthusiastically embraced this idea.

We hope the issue achieved in his honor brings Professor Ion Colojoară the joy his producers felt. Among these, it is proper to mention the names of Aurelian Gheondea and Radu Miculescu, without the efforts of whom this issue would not have been successfully accomplished.

The editorial board
