

Professor Cabiria Andreian Cazacu is 85

On February 18 2013, Professor Cabiria Andreian Cazacu, a Romanian mathematician of world-wide reputation, turned 85 years old. To honor her on this occasion, the Editorial Board have decided to dedicate to her one issue of our journal.

We dearly hope that the issue written in her honor will bring her as much joy as we felt in writing and preparing it.

Many Happy Returns of the Day, Professor Cabiria Andreian Cazacu!

The Editorial Board
