

Professor Cassius Tocqueville Ionescu Tulcea is 90

On October 14 2013, Professor Cassius Tocqueville Ionescu Tulcea, a Romanian mathematician of world-wide reputation, will turn 90 years old. To honor him on this occasion, the Editorial Board have decided to dedicate to him one issue of our journal.

We dearly hope that the issue written in his honor will bring him as much joy as we felt in writing and preparing it.

Many Happy Returns of the Day, Professor!

The Editorial Board
