

Professor Nicolaie D. Cristescu is 85

On February 17 2014, Professor Nicolaie D. Cristescu, a Romanian mathematician of world-wide reputation, turned 85 years old. To honor him on this occasion, the Editorial Board have decided to dedicate to him one issue of our journal.

We dearly hope that the issue written in his honor will bring him as much joy as we felt in writing and preparing it.

Many Happy Returns of the Day, Professor!

The Editorial Board
