## On the Steady Subsonic Flow with Circulation past the Circular Cylinder

Adrian CARABINEANU

November 11, 2004

**Abstract** - In the framework of Imai-Lamla-Jacob approximate method we study the plane subsonic steady flow with circulation past the unit circle.

**Key words and phrases** : asymptotic method, Mach number, subsonic flow, velocity distribution.

**Mathematics Subject Classification** (2000) : 76G25
