## Generalized iterated function systems containing Meir-Keeler functions

Dan DUMITRU

**Abstract** - The aim of this article is to investigate the generalized iterated function systems formed by Meir-Keeler functions and to prove the existence and uniqueness of the attractors for these iterated function systems.

**Key words and phrases** : (generalized) iterated function system, Meir-Keeler functions.

**Mathematics Subject Classification** (2000) : 28A80.
